DETAILED ACTION

1. This action is responsive to communication filed 4/9/07.

Response to Amendment

2. Examiner acknowledges cancelled claims 1-3 and 7-10. Examiner acknowledges the amendment filed 4/9/07. Examiner withdraws claims rejected under judicially created doctrine of obviousness-type double patenting.

Allowable Subject Matter

3. Claims 4-6 (renumbered claims 1-3) are allowed.
4. The following is an examiner's statement of reasons for allowance for independent claim 4. The prior art fails to teach an image area and posture instruction section to instruct an area of boundary field of angle to be imaged when the calibration pattern is imaged, to determine a position a posture of the imaging system relative to the calibration pattern and size of an imaging range, so that the calibration pattern can be imaged as large as possible in a field of view of observing the boundary. These features in combination with other features are not taught in the prior art. Claims 5-6 depend on claim 4. Therefore are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
